

The Future Vision for Primary Care in South Yorkshire

Primary Care Conference
26th September 2023

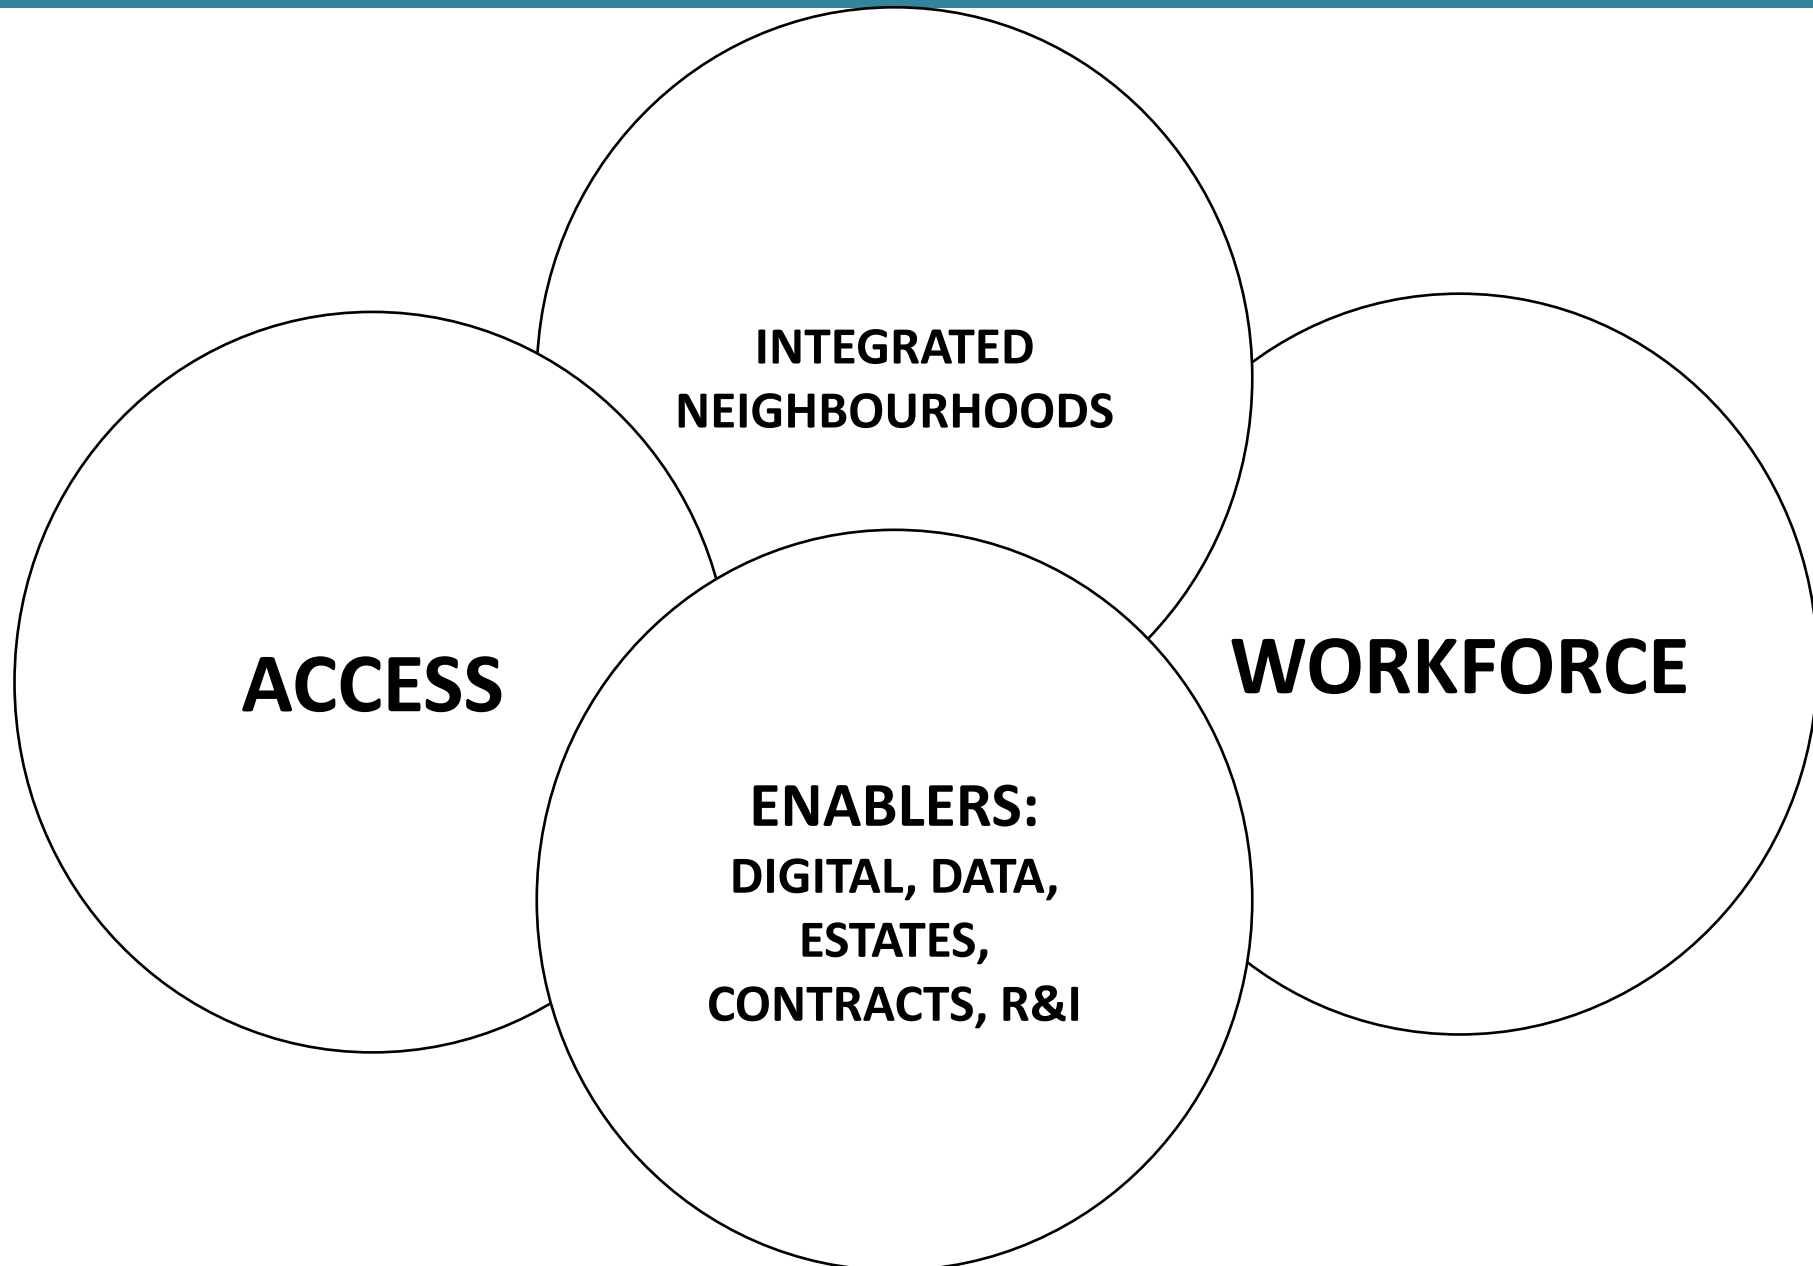

Laura Sherburn, CEO Primary Care Doncaster

Our Vision for Primary Care

To enable the people of South Yorkshire to maximise their health and wellbeing, supported by excellent, local primary and community care services that are responsive to the needs of communities, joined up with system partners and sustainable for the future.

Our 4 Strategic Themes:

ACCESS - improving patients' experience of all primary care services

Next steps for integrating primary care: Fuller Stocktake report

Commissioned by NHS England and NHS Improvement from Dr Claire Fuller, CEO (designate) Surrey Heartlands ICS

MAY 2022

The Fuller Stocktake report describes a vision for integrating primary care at the heart of which is the need to improve the access experience for our communities. Access needs to be timely and streamlined for those requiring immediate or urgent care and proactive and person centred for those with multiple long-term conditions or complex needs

Access recovery plan (national)

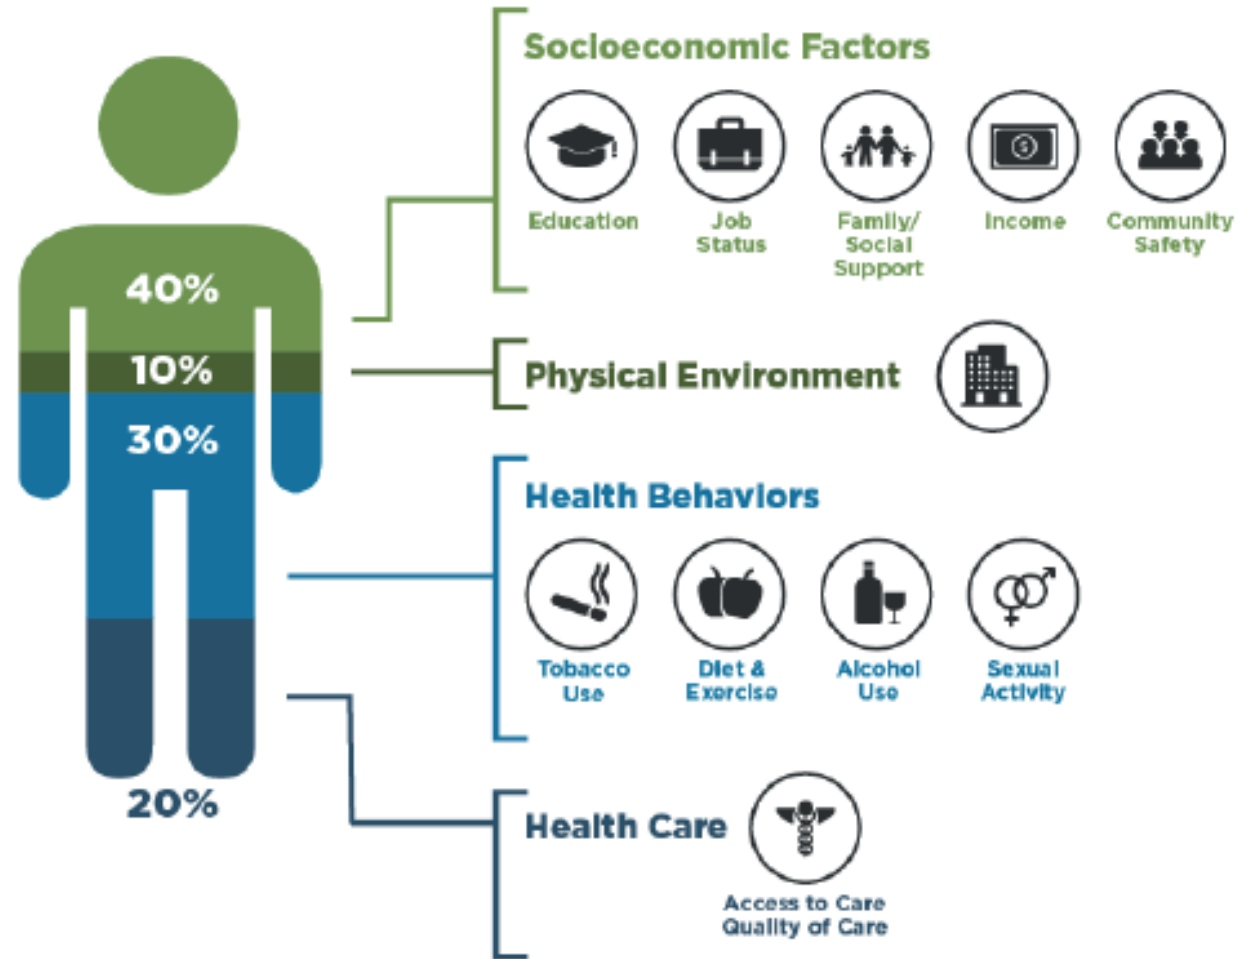

4 key areas in delivery plan for recovering access to primary care:

1. Empowering patients to manage their own health
2. Implementing Modern General Practice Access
3. Building Capacity
4. Cutting bureaucracy

Care Navigation & Triage is a priority for both system and patients – right person, right place, first time.

Care navigation has developed mainly within general practice, but wherever people present for care there could be opportunity to train staff to undertake this role, for example in community pharmacy.
