

# Levy Transfer Service

NHS England, Education Investments and Commissioning Team

The Education Investments and Commissioning team in North East & Yorkshire offer a service to facilitate the transfer of funds from levy paying employers to non-levy paying employers to pay for apprenticeship training in primary and community care.

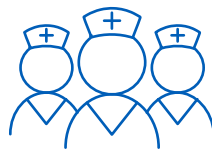

Non-levy paying employers can use these funds to cover **100% of apprenticeship training costs**, rather than making a funding reservation via the government website and paying 5% co-investment.

**Levy contributions made by levy paying organisations expire after two years. By facilitating transfers, we can limit the amount that expires and reinvest that funding back into the North East and Yorkshire NHS system. In the last financial year, we successfully facilitated 526 transfers with a total value of £5.6 Million.**

## Levy Paying Employers

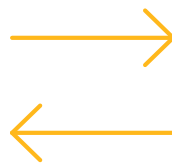

You can transfer up to 50% of your levy to non-levy paying employers each year.

By agreeing to transfer levy funds to another organisation, you are committing to pay for a specific apprenticeship until the apprentice(s) has completed.

If you wish to make a funding pledge to support non-levy payers in the region, please email:

[england.levytransfer.north@nhs.net](mailto:england.levytransfer.north@nhs.net)

## Non-Levy Paying Employers

If you do not pay the apprenticeship levy but wish to have apprentices fully funded, please complete the online form once your apprentice has a course place confirmed.

<https://forms.office.com/e/BFPUQkQY6S>

We will then attempt to source the funding from levy payers in the region, and once confirmed, will support you through every step of the transfer process.
